Dear Brethren in Christ,

Yours of Jan. 9th is received. You will learn the number of our students &c. from the accompanying Catalogue. Some of our students are anxiously looking towards the Burmese field. But I can not say they have fully determined to enter it.

I believe that no one directly from this Institution has become a missionary.

For the last year & a half (during which time our Institution has been located here) we have enjoyed some refreshing manifestations of the divine presence.

from 40 to 50 have hopefully experienced the renewings of Divine grace. about 30 of this number have united with the Baptist church in this place.

Will you in turn please inform us of the number of your students; how many from your Seminary have become missionaries; & where; how many have now determined to become missionaries. & where!

Also any other information you may think proper to impart.

Yours in Christian bonds

Sullivan Adams.
